

# ANALYST OCTOBER CHALLENGE

This month's challenges are all about riddles that involve logic and reasoning. Bring in the solution to earn your blue Mastery Credit. Good luck!

A farmer has to get a bag of corn, a chicken and a fox across a river safely. The farmer only has room for 1 item in his boat at a time. The only problem is that if he leaves the fox alone with the chicken, the fox will eat the chicken, and if he leaves the chicken alone with the bag of corn, then the chicken will eat the corn. How can the farmer get all three items across the river safely?
