

# OPERATIVE OCTOBER CHALLENGE

This month's challenges are all about riddles that involve logic and reasoning. Bring in the solution to earn your blue Mastery Credit. Good luck!

On the island of Elbonia, a letter can cost anywhere from 1 cent to 15 cents to mail. You can only mail letters using the exact postage. However, there is only room for 3 stamps on each envelope. The Elbonian's also only have 3 values of stamps. What must the 3 values of stamps be for someone to mail a letter worth any amount between 1 and 15 cents?
