

OPERATIVE FEBRUARY CHALLENGE

This Month's Challenges are all sudoku puzzles. The goal is to fill a 9x9 grid with digits 1-9 so that each column, each row, and each of the nine 3x3 sub-grids contain all of the digits 1-9 without any repeating in a single column, row, or sub-grid. **The key to Sudoku puzzles is that you NEVER have to guess!** Think logically and use deductive reasoning to determine where each digit goes. Bring in your successfully completed puzzle to your next class for a valuable mastery credit! Good luck!

6	7						4	9
5		9	6					8
		2				6	5	
				1	9		6	
			5		8			
	2		7	4				
	8	4				1		
7					3	4		5
3	9						8	6
