

ANALYST MARCH CHALLENGE

Math Plus Academy turns 5 years old this month! In honor of our 5 year anniversary the theme for challenges this month are the teacher's, director's and assistant's favorite challenges of all time! We hope you love them as much as we do. Good luck!

There is a jar of amoebas in a table. The amount of amoebas doubles every minute. If the jar is full at 12pm noon, what time is the jar half full?
