

OPERATIVE MARCH CHALLENGE

Math Plus Academy turns 5 years old this month! In honor of our 5 year anniversary the theme for challenges this month are the teacher's, director's and assistant's favorite challenges of all time! We hope you love them as much as we do. Good luck!

A local bicycle shop sells a lot of bicycles and tricycles. A bicycle has 2 wheels and a tricycle has 3 wheels. There are 17 wheels in the shop all together. How many bicycles and tricycles are in the shop?
