

PRE-ALGEBRA OCTOBER CHALLENGE

This month's challenges are all about riddles that involve logic and reasoning. Bring in the solution to earn your eXperience Ponds! Good luck!

A frog fell into a hole 20 feet deep. Every day, the frog was able to climb 3 feet up the side of the hole. Every night he slid back 2 feet. How many days does it take the frog to climb out of the hole? (*Hint: the answer is not 8 days)
